Variable Universal Life Insurance**

American General Life Insurance Company

'INVESTMENT OPTION PERFORMANCE INFORMATION AS OF November 29, 2024

Group Flexible Premium Variable Life Insurance Policy is a group private placement variable universal life insurance policy issued by American General Life Insurance Company. The table below presents total returns and expense ratios for each registered Group Flexible Premium Variable Life Insurance Policy investment option.² The total return is the rate of growth that would be necessary to achieve the ending value of a premium payment in the investment option for the period specified. The returns reflect deductions for management and other expenses of the portfolios/funds only and the reinvestment of dividends and distributions in the portfolios/funds. The gross expense ratio reflects the gross expenses of the portfolios/funds and the net expense ratio reflects the expenses of the portfolios/funds as reduced by any contractual reimbursement or fee waiver, as appropriate. THESE RETURNS DO NOT REFLECT POLICY CHARGES FOR PREMIUM LOADS, COST OF INSURANCE, MORTALITY AND EXPENSE RISK CHARGES, ACCOUNT MANAGEMENT CHARGES, OR HOW A HYPOTHETICAL POLICY MIGHT HAVE PERFORMED WITH THE SPECIFIED POLICY CHARGES. If these charges were included, the performance listed below would be significantly lower. SEE THE POLICY PRIVATE PLACEMENT MEMORANDUM FOR DETAILED INFORMATION ABOUT ALL CHARGES.

Group Flexible Premium Variable Life Insurance Policy
Variable Universal Life Insurance

American General Life Insurance Company

- 1 The returns were calculated from the inception date of the underlying funds or portfolios. These funds or portfolios were not available for sale through this policy during all periods shown.
- 2 These investment options are currently available through other products offered by American General Life Insurance Company and/or AIG Life of Bermuda, Ltd. and may be made available in this product. There is no guarantee that any fund or manager will make their investment option available to purchasers of the Group Flexible Premium Variable Life Insurance Policy.
- 3 Certain of the funds or portfolios may have contractual reimbursements or fee waivers. Such information is not included in this table.
- 4 On August 7, 2015 the PIMCO VIT CommodityRealReturn® Strategy Portfolio - Administrative Class effected a reverse share split for the portfolio, pursuant to which any separate account that is an owner received one share in exchange for every two shares of the portfolio they owned. The reverse share split did not alter the rights or total value of any policy owner's investment in the portfolio.

Fund returns may have been achieved during favorable market conditions. There can be no assurance that the fund will continue to achieve a substantially similar performance as it previously experienced.

Higher potential return generally involves greater risk, and short-term volatility is not uncommon when investing in emerging markets. Risks for emerging markets include, for instance, risks relating to the relatively smaller size and lesser liquidity of these markets, high inflation rates and adverse political developments.

Higher potential return generally involves greater risk, and short-term volatility is not uncommon when investing in small and midsized companies. Risks for smaller companies include, for instance, business risks, significant stock price fluctuations and illiquidity.

Higher potential return generally involves greater risk, and short-term volatility is not uncommon when investing in a sector fund.

Investing in higher-yielding, lower-rated bonds has a greater risk of price fluctuation and loss of principal and income than U.S. government securities, such as U.S. Treasury bonds and bills. Treasuries are guaranteed by the government for repayment of principal and interest if held to maturity. Investors should carefully assess the risk associated with an investment in the fund.

Government securities offer a high degree of safety and are guaranteed as to the timely payment of principal and interest if held to maturity. Fund shares are not insured, and their value and yield will vary with market conditions.

Returns may be higher or lower than the performance stated due to recent stock market volatility.

Past performance is no guarantee of future results. An investor's units may be worth more or less than the original amount invested when redeemed. An investment in the Fidelity VIP Money Market Portfolio - Initial Class is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the Fund seeks to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in the Fund. International fund unit values and returns will fluctuate with market conditions, currencies and economic and political climates where investments are made.
