Goldman Sachs VIT Equity Funds

The following are highlights both of key factors affecting the U.S. and international equity markets and of any key changes made to the Goldman Sachs VIT Equity Funds (the "Funds") during the six months ended June 30, 2023 (the "Reporting Period"). Attribution highlights are provided for those Funds that materially outperformed or underperformed their respective benchmark during the Reporting Period. A fuller review will appear in the Funds' annual shareholder report covering the 12 months ended December 31, 2023.

Market and Economic Review

U.S. Equities

- Overall, U.S. equities rallied during the Reporting Period following poor performance in 2022. The Standard & Poor's 500® Index (the "S&P 500 Index") ended the Reporting Period with a return of 16.89%, its best first-half showing since 2019 and second best since 1998. The Russell 3000® Index generated a return of 16.17%.
- The U.S. equity market's strength was predominantly driven throughout the Reporting Period by disinflation momentum, an upswing in soft economic landing expectations and consumer resilience. (A soft landing, in economics, is a cyclical slowdown in economic growth that avoids recession.)
- During the first quarter of 2023, the S&P 500 Index returned 7.53%, marking its second straight quarterly gain.
 - Following a stellar start to the calendar year, February 2023 proved to be a setback for the disinflation path after nonfarm payrolls data illustrated the largest job growth in six months, and the U.S. unemployment rate fell to a 53-year low, in turn pushing market forecasts for the U.S. Federal Reserve's ("Fed") terminal rate upward. (The terminal federal funds rate is the ultimate interest rate level the Fed sets as its target for a cycle of rate hikes or cuts.)
 - The January 2023 Producer Price Index ("PPI") and core Personal Consumption Expenditure ("PCE") Index saw their largest monthly increases since mid-2022, illustrating that more work was needed to combat inflation.
 - The bearish case was further supported by a disappointing fourth quarter 2022 corporate earnings season, as margins came under pressure by persistently high input costs and weaker demand. (Bearish refers to an expected downward movement in the prices of securities.)
 - Consensus forecasts for the Fed's interest rate path took a dovish turn in March 2023 due to an abrupt banking
 crisis that escalated the risk of raising interest rates. Economic data in March also contributed to the dovish
 sentiment, as February 2023 PPI, PCE and personal income growth data were cooler than expected. (Dovish
 suggests lower interest rates; opposite of hawkish.)
 - On the geopolitical front, the most constructive takeaways came from China's accelerated economic re-opening
 following its unanticipated zero-COVID policy pivot toward the end of 2022 as well as Europe's warmer than
 anticipated weather that helped avoid an energy crisis.
- During the second quarter of 2023, the S&P 500 Index returned 8.74%, marking its third consecutive quarterly gain.
 - In addition to those factors that drove strong performance throughout the Reporting Period, second quarter results were boosted by a better than consensus expected first quarter 2023 corporate earnings season and persistent enthusiasm around artificial intelligence ("AI"), including the possibility for a boom in AI-related chipmakers.
 - In turn, growth stocks significantly outperformed their value counterparts, as mega-cap technology stocks accounted for a vast majority of the S&P 500 Index's rally in the quarter.
 - First quarter 2023 corporate earnings metrics, although supported by a lower bar, were well above their
 one-year averages due to a combination of ongoing pricing power, supply-chain normalization, cost-cutting
 initiatives and margin expansion.
 - Disinflation progress was highlighted by a cooler than consensus expected May 2023 Consumer Price Index reading, as the inflation rate fell to 4.0%, the lowest level in more than two years, on the back of lower energy

1

prices. The May PPI and headline PCE Index data also came in below consensus market forecasts. Furthermore, transitory inflation pressures, such as supply-chain disruptions, continued to fade throughout the quarter.

- The soft landing narrative continued to take form with a still-tight labor market and robust housing market helping to counteract the possibility of a recession.
- Despite the S&P 500 Index's strong second calendar quarter, there were numerous bearish takeaways.
 - These primarily surrounded the implacable higher-for-longer messaging from the Fed. Although the June Fed meeting left the federal funds rate unchanged, Fed Chair Powell made a hawkish statement that the Fed is open to additional rate hikes before year end.
 - Concentrated market leadership was another concern for investors that raised doubts about the sustainability of the U.S. equity market rally.
 - On the geopolitical front, a slower than consensus expected economic recovery in China presented an additional setback for the market.
- During the Reporting Period overall, all segments of the U.S. equity markets gained ground, but large-cap stocks were strongest, followed by mid-cap stocks and then small-cap stocks. In a reversal from 2022, growth stocks meaningfully outperformed value stocks on a relative basis across the capitalization spectrum during the Reporting Period.
- Eight of the 11 sectors of the S&P 500 Index gained during the Reporting Period. In another reversal from 2022, the best performing sectors by far within the S&P 500 Index during the Reporting Period were information technology, communication services and consumer discretionary. The weakest performing sectors during the Reporting Period were utilities, energy and health care.

International Equities

- Representing the developed international equity markets, the MSCI EAFE Index (net) ("MSCI EAFE Index") returned 11.67%, during the Reporting Period, underperforming the U.S. equity market, as represented by the 16.89% return of the S&P 500 Index.
- During the first quarter of 2023, the MSCI EAFE Index returned 8.47%.
 - International equities rose solidly in January 2023, as markets performed well on the back of softening global inflationary pressures in the U.S. and Europe, the slowing pace of central bank interest rate hikes and receding concerns about recession. Additionally, China finally lifted its stringent zero-COVID policy, which increased global hopes around both the resolution of supply-chain disruptions as well as economic recovery driven by strong domestic consumption.
 - The MSCI EAFE Index then fell in February 2023. Market sentiment was governed by dampening expectations around potential peaking of interest rate hikes and continued geopolitical tensions between Russia and Ukraine one year after Russia's initial invasion.
 - International equities gained in March 2023, with market sentiment boosted, as it had been at the start of the new calendar year, by speculation around the potential peaking of inflation, the slowing pace of central bank interest rate hikes and receding concerns about a global recession—all despite banking tensions that arose during the month in the U.S. and internationally.
- During the second quarter of 2023, the MSCI EAFE Index returned 2.95%.
 - International equities continued to rise in April 2023, recovering slightly from the banking turmoil that plagued March.
 - Headline inflation in Europe fell sharply as energy prices continued to decline globally.
 - China continued to experience reopening-driven economic growth, even as geopolitical concerns around U.S./ China tensions weakened investor sentiment toward the country.

- The Japanese equity market rose for the fourth consecutive month, driven largely by new Bank of Japan governor Kazuo Ueda declaring a commitment to an ultra-loose monetary easing policy and famed U.S. investor Warren Buffet declaring he planned to add to his Japanese equity investments.
- The MSCI EAFE Index fell in May 2023, as high inflation rates persisted globally, sustained wage growth raised concerns around peak monetary policy rates being higher than earlier expected, and worries around the U.S. debt ceiling loomed over the markets.
- International equities rebounded in June 2023, as overall, the global economic outlook eased, reducing the risk of falling into a recession.
 - The Bank of England hiked its interest rates more than consensus expected to combat sticky inflation, encouraging other central banks to continue policy tightening.
 - · China's recovery-fueled momentum slowed, leading to its central bank cutting multiple key lending rates.
 - In Japan, import prices began to ease along with other inflation drivers.
- Ten of the 11 sectors in the MSCI EAFE Index posted positive returns during the Reporting Period. The best performing sectors within the MSCI EAFE Index during the Reporting Period were information technology, consumer discretionary and industrials. The weakest performing sector and the only one to post a negative absolute return during the Reporting Period was real estate. Energy and materials generated positive total returns but also significantly lagged the MSCI EAFE Index during the Reporting Period.
- The best performing countries within the MSCI EAFE Index were Ireland, Italy, Spain, the Netherlands and France. The weakest performing countries in the MSCI EAFE Index were Canada, Finland, Norway, Hong Kong and Israel, each of which posted a negative absolute return during the Reporting Period.

Fund Changes and Highlights

No material changes were made to the Funds during the Reporting Period.

Goldman Sachs VIT Mid Cap Growth Fund

- The Fund underperformed its benchmark, the Russell Mid Cap® Growth Index (with dividends reinvested) (the "Russell Index), during the Reporting Period.
- Stock selection and sector allocation decisions overall detracted from the Fund's performance during the Reporting Period.
 - Stock selection in consumer discretionary, financials and information technology detracted most from the Fund's relative results during the Reporting Period.
 - Having an average underweighted allocation to information technology, the second-strongest performing sector in the Russell Index during the Reporting Period, also hurt.
 - Having a position, albeit modest, in cash during a Reporting Period when the Russell Index experienced a double-digit gain, further dampened results.
- These detractors were only partially offset by the positive contributions made by effective stock selection in health care, energy and communication services.
 - Within health care, both stock selection and allocation positioning within the life sciences tools & services industry helped most.
 - Within energy, stock selection within the oil, gas & consumable fuels industry and having no exposure to the energy equipment & services industry boosted results most.
 - Within communication services, stock selection and allocation positioning within the media industry added the
 most value, partially offset by weak stock selection and allocation positioning within the entertainment industry,
 which detracted.

Goldman Sachs VIT Small Cap Equity Insights Fund

- The Fund outperformed its benchmark, the Russell 2000® Index (with dividends reinvested) (the "Russell Index"), during the Reporting Period.
- During the Reporting Period, the Fund outperformed the Russell Index on a relative basis, with all four of our quantitative model's investment themes contributing positively. Stock selection overall, driven by these investment themes, boosted relative performance.
 - High Quality Business Models and Sentiment Analysis bolstered relative results most, followed by Fundamental Mispricings and Market Themes & Trends.
 - High Quality Business Models seeks to identify companies that are generating high quality revenues with sustainable business models and aligned management incentives.
 - · Sentiment Analysis seeks to identify stocks experiencing improvements in their overall market sentiment.
 - Fundamental Mispricings seeks to identify high quality businesses trading at a fair price, which we believe may lead to strong performance over the long run.
 - Market Themes & Trends seeks to identify companies positively positioned to benefit from themes and trends in the market and macroeconomic environment.
 - Stock selection in the financials, consumer discretionary and consumer staples sectors contributed the most positively to the Fund's relative returns during the Reporting Period. Conversely, certain individual stock positions, especially in the energy, health care and communication services sectors, detracted from the Fund's relative returns.

PERFORMANCE REVIEW		
January 1, 2023–June 30, 2023	Fund Total Return (based on NAV) ¹	MSCI EAFE Standard Index ²
Institutional	12.01%	11.67%
Service	11.82	11.67

- ¹ The net asset value ("NAV") represents the net assets of the class of the Fund (ex-dividend) divided by the total number of shares of the class outstanding. The Fund's performance assumes the reinvestment of dividends and other distributions. The Fund's performance does not reflect the deduction of any applicable sales charges.
- ² The MSCI EAFE Standard Index is a market capitalization-weighted composite of securities in 21 developed markets. The MSCI EAFE Standard Index approximates the minimum possible dividend reinvestment. The dividend is reinvested after deduction for withholding tax, applying the rate to non-resident individuals who do not benefit from double taxation treaties. MSCI uses withholding tax rates applicable to Luxembourg holding companies, as Luxembourg applies the highest rates. The MSCI EAFE Standard Index is unmanaged and the figures for the Index do not include any deduction for fees or expenses.

The returns set forth in the table above represent past performance. Past performance does not guarantee future results. The Fund's investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance quoted above. Please visit our web site at www.GSAMFUNDS.com to obtain the most recent month-end returns. Performance reflects applicable fee waivers and/or expense limitations in effect during the periods shown. In their absence, performance would be reduced. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

FUND vs. BENCHMARK SECTOR ALLOCATIONS⁴

As of June 30, 2023

⁴ The Fund is actively managed and, as such, its composition may differ over time. Consequently, the Fund's overall sector allocations may differ from percentages contained in the graph above. The graph categorizes investments using Global Industry Classification Standard ("GICS"); however, the sector classifications used by the portfolio management team may differ from GICS. The percentage shown for each investment category reflects the value of investments in that category as a percentage of market value.

Notes to Financial Statements

June 30, 2023 (Unaudited)

1. ORGANIZATION

Goldman Sachs Variable Insurance Trust (the "Trust" or "VIT") is a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the "Act"), as an open-end management investment company. The following table lists those series of the Trust that are included in this report (collectively, the "Funds" or individually a "Fund"), along with their corresponding share classes and respective diversification status under the Act:

Fund	Share Classes Offered	Diversified/ Non-diversified
International Equity Insights	Institutional and Service	Diversified
Large Cap Value	Institutional and Service	Diversified
Mid Cap Growth	Institutional and Service	Diversified
Mid Cap Value	Institutional and Service	Diversified
Small Cap Equity Insights	Institutional and Service	Diversified
Strategic Growth	Institutional and Service	Non-Diversified
U.S. Equity Insights	Institutional and Service	Diversified

Shares of the Trust are offered to separate accounts of participating life insurance companies for the purpose of funding variable annuity contracts and variable life insurance policies.

Goldman Sachs Asset Management, L.P. ("GSAM" or the "Investment Adviser"), an affiliate of Goldman Sachs & Co. LLC ("Goldman Sachs"), serves as investment adviser to the Funds pursuant to management agreements (the "Agreements") with the Trust.

2. SIGNIFICANT ACCOUNTING POLICES

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and require management to make estimates and assumptions that may affect the reported amounts and disclosures. Actual results may differ from those estimates and assumptions. Each Fund is an investment company under GAAP and follows the accounting and reporting guidance applicable to investment companies.

- A. Investment Valuation The Funds' valuation policy is to value investments at fair value.
- B. Investment Income and Investments Investment income includes interest income, dividend income, and securities lending income, if any. Interest income is accrued daily and adjusted for amortization of premiums and accretion of discounts. Dividend income is recognized on ex-dividend date or, for certain foreign securities, as soon as such information is obtained subsequent to the ex-dividend date. Non-cash dividends, if any, are recorded at the fair market value of the securities received. Investment transactions are reflected on trade date. Realized gains and losses are calculated using identified cost. Investment transactions are recorded on the following business day for daily net asset value ("NAV") calculations. Investment income is recorded net of any foreign withholding taxes, less any amounts reclaimable. The Funds may file withholding tax reclaims in certain jurisdictions to recover a portion of amounts previously withheld. Any foreign capital gains tax is accrued daily based upon net unrealized gains, and is payable upon sale of such investments. Distributions received from the Funds' investments in United States ("U.S.") real estate investment trusts ("REITs") may be characterized as ordinary income, net capital gain and/or a return of capital. A return of capital is recorded by the Funds as a reduction to the cost basis of the REIT.

For derivative contracts, unrealized gains and losses are recorded daily and become realized gains and losses upon disposition or termination of the contract.

C. Class Allocations and Expenses — Investment income, realized and unrealized gain (loss), if any, and non-class specific expenses of each Fund are allocated daily based upon the proportion of net assets of each class. Non-class specific expenses

2. SIGNIFICANT ACCOUNTING POLICES (continued)

directly incurred by a Fund are charged to that Fund, while such expenses incurred by the Trust are allocated across the applicable Funds on a straight-line and/or pro-rata basis depending upon the nature of the expenses. Class specific expenses, where applicable, are borne by the respective share classes and include Distribution and Service and Transfer Agency fees.

D. Federal Taxes and Distributions to Shareholders — It is each Fund's policy to comply with the requirements of the Internal Revenue Code of 1986, as amended (the "Code"), applicable to regulated investment companies and to distribute each year substantially all of its investment company taxable income and capital gains to its shareholders. Accordingly, each Fund is not required to make any provisions for the payment of federal income tax. Distributions to shareholders are recorded on the ex-dividend date. Income and capital gains distributions, if any, are declared and paid at least annually.

Net capital losses, if any, are carried forward to future fiscal years and may be used to the extent allowed by the Code to offset any future capital gains. Losses that are carried forward will retain their character as either short-term or long-term capital losses. Utilization of capital loss carryforwards will reduce the requirement of future capital gains distributions.

The characterization of distributions to shareholders for financial reporting purposes is determined in accordance with federal income tax rules, which may differ from GAAP. The source of each Fund's distributions may be shown in the accompanying financial statements as either from distributable earnings or capital. Certain components of the Funds' net assets on the Statements of Assets and Liabilities reflect permanent GAAP/tax differences based on the appropriate tax character.

E. Foreign Currency Translation — The accounting records and reporting currency of a Fund are maintained in U.S. dollars. Assets and liabilities denominated in foreign currencies are translated into U.S. dollars using the current exchange rates at the close of each business day. The effect of changes in foreign currency exchange rates on investments is included within net realized and unrealized gain (loss) on investments. Changes in the value of other assets and liabilities as a result of fluctuations in foreign exchange rates are included in the Statements of Operations within net change in unrealized gain (loss) on foreign currency translation. Transactions denominated in foreign currencies are translated into U.S. dollars on the date the transaction occurred, the effects of which are included within net realized gain (loss) on foreign currency transactions.

3. INVESTMENTS AND FAIR VALUE MEASUREMENTS

U.S. GAAP defines the fair value of a financial instrument as the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price); the Funds' policy is to use the market approach. GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The level in the fair value hierarchy within which the fair value measurement in its entirety falls shall be determined based on the lowest level input that is significant to the fair value measurement in its entirety. The levels used for classifying investments are not necessarily an indication of the risk associated with investing in these investments. The three levels of the fair value hierarchy are described below:

Level 1 — Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 — Quoted prices in markets that are not active or financial instruments for which significant inputs are observable (including, but not limited to, quoted prices for similar investments, interest rates, foreign exchange rates, volatility and credit spreads), either directly or indirectly;

Level 3 — Prices or valuations that require significant unobservable inputs (including GSAM's assumptions in determining fair value measurement).

The Board of Trustees ("Trustees") has approved Valuation Procedures that govern the valuation of the portfolio investments held by the Funds, including investments for which market quotations are not readily available. With respect to the Funds' investments that do not have readily available market quotations, the Trustees have designated the Adviser as the valuation designee to perform

Notes to Financial Statements (continued)

June 30, 2023 (Unaudited)

3. INVESTMENTS AND FAIR VALUE MEASUREMENTS (continued)

fair valuations pursuant to Rule 2a-5 under the Investment Company Act of 1940 (the "Valuation Designee"). GSAM has day-to-day responsibility for implementing and maintaining internal controls and procedures related to the valuation of the Funds' investments. To assess the continuing appropriateness of pricing sources and methodologies, GSAM regularly performs price verification procedures and issues challenges as necessary to third party pricing vendors or brokers, and any differences are reviewed in accordance with the Valuation Procedures.

A. Level 1 and Level 2 Fair Value Investments — The valuation techniques and significant inputs used in determining the fair values for investments classified as Level 1 and Level 2 are as follows:

Equity Securities — Equity securities traded on a U.S. securities exchange or the NASDAQ system, or those located on certain foreign exchanges, including but not limited to the Americas, are valued daily at their last sale price or official closing price on the principal exchange or system on which they are traded. If there is no sale or official closing price or such price is believed by GSAM to not represent fair value, equity securities will be valued at the valid closing bid price for long positions and at the valid closing ask price for short positions (i.e. where there is sufficient volume, during normal exchange trading hours). If no valid bid/ask price is available, the equity security will be valued pursuant to the Valuation Procedures and consistent with applicable regulatory guidance. To the extent these investments are actively traded, they are classified as Level 1 of the fair value hierarchy, otherwise they are generally classified as Level 2. Certain equity securities containing unique attributes may be classified as Level 2.

Unlisted equity securities for which market quotations are available are valued at the last sale price on the valuation date, or if no sale occurs, at the last bid price for long positions or the last ask price for short positions, and are generally classified as Level 2. Securities traded on certain foreign securities exchanges are valued daily at fair value determined by an independent fair value service (if available) under the Valuation Procedures and consistent with applicable regulatory guidance. The independent fair value service takes into account multiple factors including, but not limited to, movements in the securities markets, certain depositary receipts, futures contracts and foreign currency exchange rates that have occurred subsequent to the close of the foreign securities exchange. These investments are generally classified as Level 2 of the fair value hierarchy.

Money Market Funds — Investments in the Goldman Sachs Financial Square Government Fund ("Underlying Money Market Fund") are valued at the NAV per share of the Institutional Share class on the day of valuation. These investments are generally classified as Level 1 of the fair value hierarchy. For information regarding the Underlying Money Market Fund's accounting policies and investment holdings, please see the Underlying Money Market Fund's shareholder report.

Derivative Contracts — A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. A Fund enters into derivative transactions to hedge against changes in interest rates, securities prices, and/or currency exchange rates, to increase total return, or to gain access to certain markets or attain exposure to other underliers. For financial reporting purposes, cash collateral that has been pledged to cover obligations of a Fund and cash collateral received, if any, is reported separately on the Statements of Assets and Liabilities as either due to broker/receivable for collateral on certain derivative contracts. Non-cash collateral pledged by a Fund, if any, is noted in the Schedules of Investments.

Exchange-traded derivatives, including futures and options contracts, are generally valued at the last sale or settlement price on the exchange where they are principally traded. Exchange-traded options without settlement prices are generally valued at the midpoint of the bid and ask prices on the exchange where they are principally traded (or, in the absence of two-way trading, at the last bid price for long positions and the last ask price for short positions). Exchange-traded derivatives typically fall within Level 1 of the fair value hierarchy. Over-the-counter ("OTC") and centrally cleared derivatives are valued using market transactions and other market evidence, including market-based inputs to models, calibration to market-clearing transactions, broker or dealer quotations, or other alternative pricing sources. Where models are used, the selection of a particular model to value OTC and centrally cleared derivatives depends upon the contractual terms of, and specific risks inherent in, the instrument, as well as the availability of pricing information in the market. Valuation models require a variety of inputs, including contractual terms, market prices, yield curves, credit curves, measures of volatility, voluntary and involuntary prepayment rates, loss severity rates and correlations of such inputs. For OTC and centrally cleared derivatives that trade in liquid markets, model inputs can generally be

3. INVESTMENTS AND FAIR VALUE MEASUREMENTS (continued)

verified and model selection does not involve significant management judgment. OTC and centrally cleared derivatives are classified within Level 2 of the fair value hierarchy when significant inputs are corroborated by market evidence.

- i. Futures Contracts Futures contracts are contracts to buy or sell a standardized quantity of a specified commodity or security. Upon entering into a futures contract, a Fund deposits cash or securities in an account on behalf of the broker in an amount sufficient to meet the initial margin requirement. Subsequent payments are made or received by a Fund equal to the daily change in the contract value and are recorded as variation margin receivable or payable with a corresponding offset to unrealized gains or losses.
- B. Level 3 Fair Value Investments To the extent that significant inputs to valuation models and other alternative pricing sources are unobservable, or if quotations are not readily available, or if GSAM believes that such quotations do not accurately reflect fair value, the fair value of a Fund's investments may be determined under the Valuation Procedures. GSAM, consistent with its procedures and applicable regulatory guidance, may make an adjustment to the most recent valuation prices of either domestic or foreign securities in light of significant events to reflect what it believes to be the fair value of the securities at the time of determining a Fund's NAV. To the extent investments are valued using single source broker quotations obtained directly from the broker or passed through from third party pricing vendors, such investments are classified as Level 3 investments.
- C. Fair Value Hierarchy The following is a summary of the Funds' investments and derivatives classified in the fair value hierarchy as of June 30, 2023:

INTERNATIONAL EQUITY INSIGHTS FUND

4. INVESTMENTS IN DERIVATIVES

The following table sets forth, by certain risk types, the gross value of derivative contracts (not considered to be hedging instruments for accounting disclosure purposes) as of June 30, 2023. These instruments were used as part of the Funds' investment strategies and to obtain and/or manage exposure related to the risks below. The values in the tables below exclude the effects of cash collateral received or posted pursuant to these derivative contracts, and therefore are not representative of the Funds' net exposure.

Fund	Risk	Statements of Assets and Liabilities	Assets(a)	Statements of Assets and Liabilities	Liabilities ^(a)
International Equity Insights	Equity	Variation margin on futures contracts	\$ 12,543	Variation margin on futures contracts	\$(721)
Small Cap Equity Insights	Equity	Variation margin on futures contracts	17,300	_	_
U.S. Equity Insights	Equity	Variation margin on futures contracts	110,495	_	_

⁽a) Includes unrealized gain (loss) on futures contracts described in the Additional Investment Information sections of the Schedules of Investments. Only the variation margin as of June 30, 2023 is reported within the Statements of Assets and Liabilities.

⁽a) Amounts are disclosed by continent to highlight the impact of time zone differences between local market close and the calculation of NAV. Security valuations are based on the principal exchange or system on which they are traded, which may differ from country of domicile noted in table.

⁽b) Amount shown represents unrealized gain (loss) at period end.

Notes to Financial Statements (continued)

June 30, 2023 (Unaudited)

4. INVESTMENTS IN DERIVATIVES (continued)

The following tables set forth, by certain risk types, the Funds' gains (losses) related to these derivatives and their indicative volumes for the six months ended June 30, 2023. These gains (losses) should be considered in the context that these derivative contracts may have been executed to create investment opportunities and/or economically hedge certain investments, and accordingly, certain gains (losses) on such derivative contracts may offset certain (losses) gains attributable to investments. These gains (losses) are included in "Net realized gain (loss)" or "Net change in unrealized gain (loss)" on the Statements of Operations:

International Equity Insights

Risk	Statement of Operations	Net Realized Gain (Loss)	Net Change in Unrealized Gain (Loss)
Equity	Net realized gain (loss) from futures contracts/Net change in unrealized gain (loss) on futures contracts	\$121,206	\$36,654
Small C	ap Equity Insights		
Risk	Statement of Operations	Net Realized Gain (Loss)	Net Change in Unrealized Gain (Loss)
Equity	Net realized gain (loss) from futures contracts/Net change in unrealized gain (loss) on futures contracts	\$42,883	\$58,053
U.S. Eq	uity Insights		
Risk	Statement of Operations	Net Realized Gain (Loss)	Net Change in Unrealized Gain (Loss)
Equity	Net realized gain (loss) from futures contracts/Net change in unrealized gain (loss) on futures contracts	\$262,832	\$126,673

For the six months ended June 30, 2023, the average number of futures contracts for certain Funds were as follows:

	Average Number of Contracts ⁽¹⁾
Fund	Futures Contracts
International Equity Insights	16
Small Cap Equity Insights	20
U.S. Equity Insights	9

⁽¹⁾ Amounts disclosed represent average number of contracts for futures contracts, based on absolute values, which is indicative of volume of this derivative type, for the months that the Fund held such derivatives during the six months ended June 30, 2023.

5. AGREEMENTS AND AFFILIATED TRANSACTIONS

A. Management Agreements — Under the Agreements, GSAM manages the Funds, subject to the general supervision of the Trustees.

As compensation for the services rendered pursuant to the Agreements, the assumption of the expenses related thereto and administration of the Funds' business affairs, including providing facilities, GSAM is entitled to a management fee, accrued daily and paid monthly, equal to an annual percentage rate of each Fund's average daily net assets.

5. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

For the six months ended June 30, 2023, contractual and effective net management fees with GSAM were at the following rates:

	Contractual Management Rate						Effective Net
	First \$1 billion	Next \$1 billion	Next \$3 billion	Next \$3 billion	Over \$8 billion	Effective Rate	Management Rate^
International Equity Insights	0.81%	0.73%	0.69%	0.68%	0.67%	0.81%	0.79%*
Large Cap Value	0.72	0.65	0.62	0.60	0.59	0.72	0.68*
Mid Cap Growth	0.87	0.87	0.78	0.74	0.73	0.87	0.81*
Mid Cap Value	0.77	0.77	0.69	0.66	0.65	0.77	0.77
Small Cap Equity Insights	0.70	0.70	0.63	0.60	0.59	0.70	0.70
Strategic Growth	0.71	0.64	0.61	0.59	0.58	0.71	0.71
U.S. Equity Insights	0.62	0.59	0.56	0.55	0.54	0.62	0.54*

- ^ Effective Net Management Rate includes the impact of management fee waivers of affiliated Underlying Funds, if any. The Effective Net Management Rate may not correlate to the Contractual Management Rate as a result of management fee waivers that may be in effect from time to time.
- * GSAM agreed to waive a portion of its management fee in order to achieve an effective net management rate as defined in the Funds' most recent prospectus. This waiver will remain in effect through at least April 28, 2024, and prior to such date GSAM may not terminate the arrangement without approval of the Trustees.

The International Equity Insights, Large Cap Value, Mid Cap Growth, Mid Cap Value, Small Cap Equity Insights, Strategic Growth and U.S. Equity Insights Funds invest in Institutional Shares of the Goldman Sachs Financial Square Government Fund, which is an affiliated Underlying Fund. GSAM has agreed to waive a portion of its management fee payable by the Funds in an amount equal to the management fee it earns as an investment adviser to the affiliated Underlying Fund in which the Funds invest, except those management fees it earns from the Funds' investments of cash collateral received in connection with securities lending transactions in the Goldman Sachs Financial Square Government Fund. For the six months ended June 30, 2023, with respect to the Funds' investments in an affiliated Underlying Fund GSAM waived \$2,083, \$1,751, \$4,262, \$812, and \$3,065 of the Large Cap Value, Mid Cap Growth, Mid Cap Value, Small Cap Equity Insights and Strategic Growth Funds' management fees, respectively.

- B. Distribution and/or Service (12b-1) Plans The Trust, on behalf of Service Shares of each Fund, has adopted a Distribution and Service Plan subject to Rule 12b-1 under the Act. Under the Distribution and Service Plan, Goldman Sachs, which serves as distributor (the "Distributor"), is entitled to a fee accrued daily and paid monthly for distribution services and personal and account maintenance services, which may then be paid by Goldman Sachs to authorized dealers, equal to, on an annual basis, 0.25% of the Funds' average daily net assets attributable to Service Shares. For the six months ended June 30, 2023 for the U.S. Equity Insights Fund, Goldman Sachs agreed to waive distribution and services fees so as not to exceed an annual rate of 0.21% of average daily net assets of the Fund. For the six months ended June 30, 2023 for the Mid Cap Growth Fund, Goldman Sachs agreed to waive distribution and services fees so as not to exceed an annual rate of 0.15% of average daily net assets of the Fund. These distribution and service fee waivers will remain in place through at least April 28, 2024, and prior to such date Goldman Sachs may not terminate the arrangement without the approval of the Trustees.
- C. Transfer Agency Agreement Goldman Sachs also serves as the transfer agent of the Funds for a fee pursuant to the Transfer Agency Agreement. The fees charged for such transfer agency services are accrued daily and paid monthly at an annual rate of 0.02% of the average daily net assets of Institutional and Service Shares. Goldman Sachs has agreed to waive its transfer agency fee attributable to the Service Shares of the Large Cap Value Fund. This arrangement will remain in place through at least April 28, 2024, and prior to such date Goldman Sachs may not terminate the arrangement without approval of the Board of Trustees.

June 30, 2023 (Unaudited)

5. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

D. Other Expense Agreements and Affiliated Transactions — GSAM has agreed to reduce or limit certain "Other Expenses" of the Funds (excluding acquired fund fees and expenses, transfer agency fees and expenses, service fees and shareholder administration fees (as applicable), taxes, interest, brokerage fees, expenses of shareholder meetings, litigation and indemnification, and extraordinary expenses) to the extent such expenses exceed, on an annual basis, a percentage rate of the average daily net assets of each Fund. Such Other Expense reimbursements, if any, are accrued daily and paid monthly. In addition, the Funds are not obligated to reimburse GSAM for prior fiscal year expense reimbursements, if any. The Other Expense limitations as an annual percentage rate of average daily net assets for the International Equity Insights, Large Cap Value, Mid Cap Growth, Mid Cap Value, Small Cap Equity Insights, Strategic Growth and U.S. Equity Insights Funds are 0.004%, 0.004%, 0.004%, 0.004%, 0.004%, no.004%, no.004%, respectively. These Other Expense limitations will remain in place through at least April 28, 2024, and prior to such date GSAM may not terminate the arrangements without the approval of the Trustees. In addition, the Funds have entered into certain offset arrangements with the custodian and the transfer agent, which may result in a reduction of the Funds' expenses and are received irrespective of the application of the "Other Expense" limitations described above.

For the six months ended June 30, 2023, these expense reductions, including any fee waivers and Other Expense reimbursements, were as follows:

Fund	Management Fee Waiver	Distribution and Service Fee Waiver	Transfer Agency Waiver/Credits	Other Expense Reimbursement	Total Expense Reductions
International Equity Insights	\$ 10,275	\$ —	\$ —	\$107,825	\$118,100
Large Cap Value	77,563	_	23,604	83,719	184,886
Mid Cap Growth	18,943	28,054	_	86,817	133,814
Mid Cap Value	4,262	_	_	8,572	12,834
Small Cap Equity Insights	812	_	_	37,171	37,983
Strategic Growth	3,065	_	_	64,674	67,739
U.S. Equity Insights	117,273	8,402	_	82,748	208,423

E. Line of Credit Facility — As of June 30, 2023, the Funds participated in a \$1,110,000,000 committed, unsecured revolving line of credit facility (the "facility") together with other funds of the Trust and certain registered investment companies having management agreements with GSAM or its affiliates. This facility is to be used for temporary emergency purposes, or to allow for an orderly liquidation of securities to meet redemption requests. The interest rate on borrowings is based on the federal funds rate. The facility also requires a fee to be paid by the Funds based on the amount of the commitment that has not been utilized. For the six months ended June 30, 2023, the Funds did not have any borrowings under the facility. Prior to April 19, 2023, the facility was \$1,250,000,000.

F. Other Transactions with Affiliates — For the six months ended June 30, 2023, Goldman Sachs earned \$602, \$215 and \$2,022 in brokerage commissions from portfolio transactions, including futures transactions executed with Goldman Sachs as the Futures Commission Merchant, on behalf of the Large Cap Value, Mid Cap Growth and Strategic Growth Funds, respectively.

5. AGREEMENTS AND AFFILIATED TRANSACTIONS (continued)

The following table provides information about the Funds' investment in the Goldman Sachs Financial Square Government Fund as of and for the six months ended June 30, 2023:

Fund	Beginning Value as of December 31, 2022	Purchases at Cost	Proceeds from Sales	Ending Value as of June 30, 2023	Shares as of June 30, 2023	Dividend Income
International Equity Insights	\$ —	\$ 3,203,269	\$ (3,203,269)	\$ —	_	\$ 1,263
Large Cap Value	394,821	20,734,948	(20,274,679)	855,090	855,090	62,030
Mid Cap Growth	2,865,404	12,256,514	(12,188,852)	2,933,066	2,933,066	50,993
Mid Cap Value	2,407,505	102,279,942	(95,689,512)	8,997,935	8,997,935	118,330
Small Cap Equity Insights	852,072	6,798,612	(6,474,464)	1,176,220	1,176,220	23,428
Strategic Growth	2,849,066	65,472,738	(68,321,804)	_	_	83,720
U.S. Equity Insights	_	7,451,244	(5,662,726)	1,788,518	1,788,518	19,552

6. PORTFOLIO SECURITIES TRANSACTIONS

The cost of purchases and proceeds from sales and maturities of long-term securities for the six months ended June 30, 2023, were as follows:

Fund	Purchases	Sales and Maturities
International Equity Insights	\$ 86,549,125	\$ 82,789,323
Large Cap Value	139,730,564	152,812,976
Mid Cap Growth	18,880,764	16,248,655
Mid Cap Value	207,296,290	196,301,926
Small Cap Equity Insights	88,245,967	89,183,075
Strategic Growth	131,415,194	86,849,079
U.S. Equity Insights	293,807,436	304,188,650

7. SECURITIES LENDING

The Large Cap Value, Mid Cap Growth, Mid Cap Value and Strategic Growth Funds may lend their securities through a securities lending agent, the Bank of New York Mellon ("BNYM"), to certain qualified borrowers. Pursuant to exemptive relief granted by the Securities and Exchange Commission ("SEC") and the terms and conditions contained therein, the International Equity Insights, Small Cap Equity Insights and U. S. Equity Insights Funds may lend their securities through a securities lending agent, Goldman Sachs Agency Lending ("GSAL"), a wholly-owned subsidiary of Goldman Sachs, to certain qualified borrowers including Goldman Sachs and affiliates. In accordance with the Funds' securities lending procedures, the Funds receive cash collateral at least equal to the market value of the securities on loan. The market value of the loaned securities is determined at the close of business of the Funds, at their last sale price or official closing price on the principal exchange or system on which they are traded, and any

June 30, 2023 (Unaudited)

7. SECURITIES LENDING (continued)

additional required collateral is delivered to the Funds on the next business day. As with other extensions of credit, the Funds may experience delay in the recovery of their securities or incur a loss should the borrower of the securities breach its agreement with the Funds or become insolvent at a time when the collateral is insufficient to cover the cost of repurchasing securities on loan. Dividend income received from securities on loan may not be subject to withholding taxes and therefore withholding taxes paid may differ from the amounts listed in the Statements of Operations. Loans of securities are terminable at any time and as such 1) the remaining contractual maturities of the outstanding securities lending transactions are considered to be overnight and continuous and 2) the borrower, after notice, is required to return borrowed securities within the standard time period for settlement of securities transactions.

The International Equity Insights, Large Cap Value, Mid Cap Growth, Mid Cap Value, Small Cap Equity Insights, Strategic Growth and U.S. Equity Insights Funds invest the cash collateral received in connection with securities lending transactions in the Goldman Sachs Financial Square Government Fund ("Government Money Market Fund"), an affiliated series of the Goldman Sachs Trust. The Government Money Market Fund is registered under the Act as an open end investment company, is subject to Rule 2a-7 under the Act, and is managed by GSAM, for which GSAM may receive a management fee of up to 0.16% on an annualized basis of the average daily net assets of the Government Money Market Fund.

In the event of a default by a borrower with respect to any loan, GSAL will, and BNYM may, exercise any and all remedies provided under the applicable borrower agreement to make the Funds whole. These remedies include purchasing replacement securities by applying the collateral held from the defaulting broker against the purchase cost of the replacement securities. If GSAL or BNYM are unable to purchase replacement securities, GSAL and/or BNYM will indemnify the Funds by paying the Funds an amount equal to the market value of the securities loaned minus the value of cash collateral received from the borrower for the loan, subject to an exclusion for any shortfalls resulting from a loss of value in such cash collateral due to reinvestment risk. The Funds' master netting agreements with certain borrowers provide the right, in the event of a default (including bankruptcy or insolvency), for the non-defaulting party to liquidate the collateral and calculate net exposure to the defaulting party or request additional collateral. However, in the event of a default by a borrower, a resolution authority could determine that such rights are not enforceable due to the restrictions or prohibitions against the right of set-off that may be imposed in accordance with a particular jurisdiction's bankruptcy or insolvency laws. The Funds' loaned securities were all subject to enforceable Securities Lending Agreements and the value of the collateral was at least equal to the value of the cash received. The amounts of the Funds' overnight and continuous agreements, which represent the gross amounts of recognized liabilities for securities lending transactions outstanding as of June 30, 2023, are disclosed as "Payable upon return of securities loaned" on the Statements of Assets and Liabilities, where applicable.

Each of the Funds, GSAL and BNYM received compensation relating to the lending of the Funds' securities. The amounts earned, if any, by the Funds' for the six months ended June 30, 2023, are reported under Investment Income on the Statements of Operations.

The table below details securities lending activity with affiliates of Goldman Sachs:

	For the six months e	Amounts payable to		
Fund	Earnings of GSAL Relating to Securities Loaned	Amounts Received by the Funds from Lending to Goldman Sachs	Goldman Sachs Upon Return of Securities Loaned as of June 30, 2023	
International Equity Insights	\$1,204	\$ —	\$ —	
Small Cap Equity Insights	649	412	289,424	
U.S. Equity Insights	7	_	_	

7. SECURITIES LENDING (continued)

The following table provides information about the Funds' investment in the Government Money Market Fund for the six months ended June 30, 2023:

Fund	Beginning Value as of December 31, 2022	Purchases at Cost	Proceeds from Sales	Ending Value as of June 30, 2023
International Equity Insights	\$ 166,392	\$5,539,882	\$(5,706,274)	\$ —
Mid Cap Growth	_	47,908	(47,908)	_
Mid Cap Value	_	233,900	(233,900)	_
Small Cap Equity Insights	1,025,843	3,943,205	(4,056,599)	912,449
U.S. Equity Insights	_	614,000	(614,000)	_

8. TAX INFORMATION

As of the Funds' most recent fiscal year end, December 31, 2022, the Funds' capital loss carryforwards and certain timing differences, on a tax-basis were as follows:

	International Equity Insights	Large Cap Value	Mid Cap Growth	Mid Cap Value
Capital loss carryforwards				
Perpetual short-term	\$(11,394,712)	\$ —	\$(184,177)	\$ —
Total capital loss carryforwards	\$(11,394,712)	\$ —	\$(184,177)	\$ —
Timing differences (Real Estate Investment Trusts, late year ordinary loss deferral, post October loss deferral, and				
straddle loss deferrals)	\$ (181,062)	\$ 54,783	\$(102,750)	\$ (861,362)
		Small Cap Equity Insights	Strategic Growth	U.S. Equity Insights
Capital loss carryforwards				
Perpetual short-term		\$(11,118,251)	\$ —	\$(10,171,033)
Total capital loss carryforwards		\$(11,118,251)	\$ —	\$(10,171,033)
Timing differences (Real Estate Investment Trusts, late				
year ordinary loss deferral, post October loss deferral, and				
straddle loss deferrals)		\$ (2,297,849)	\$(532,698)	\$ 4,606

June 30, 2023 (Unaudited)

8. TAX INFORMATION (continued)

As of June 30, 2023, the Funds' aggregate security unrealized gains and losses based on cost for U.S. federal income tax purposes were as follows:

	International Equity Insights	Large Cap Value	Mid Cap Growth	Mid Cap Value
Tax cost	\$96,090,668	\$336,019,877	\$ 50,714,077	\$374,330,992
Gross unrealized gain	10,983,781	66,925,056	12,441,047	70,324,828
Gross unrealized loss	(2,142,658)	(17,446,509)	(1,348,301)	(8,618,425)
Net unrealized gain (loss)	\$ 8,841,123	\$ 49,478,547	\$ 11,092,746	\$ 61,706,403
		Small Cap Equity Insights	Strategic Growth	U.S. Equity Insights
Tax cost		\$110,922,752	\$186,185,144	\$247,854,075
Gross unrealized gain		14,138,068	174,770,453	68,701,975
		1 1,120,000	-, .,,,	00,701,570
Gross unrealized loss		(5,852,286)	(3,211,663)	(4,241,889)

The difference between GAAP-basis and tax-basis unrealized gains (losses) is attributable primarily to wash sales, net mark to market gains (losses) on regulated futures and foreign currency contracts, and differences in the tax treatment of real estate investment trust investments and passive foreign investment company investments.

GSAM has reviewed the Funds' tax positions for all open tax years (the current and prior three years, as applicable) and has concluded that no provision for income tax is required in the Funds' financial statements. Such open tax years remain subject to examination and adjustment by tax authorities.

9. OTHER RISKS

The Funds' risks include, but are not limited to, the following:

Derivatives Risk — The Funds' use of derivatives and other similar instruments (collectively referred to in this paragraph as "derivatives") may result in loss, including due to adverse market movements. Derivatives, which may pose risks in addition to and greater than those associated with investing directly in securities, currencies or other assets and instruments, may increase market exposure and be illiquid or less liquid, volatile, difficult to price and leveraged so that small changes in the value of the underlying assets or instruments may produce disproportionate losses to the Funds. Certain derivatives are also subject to counterparty risk, which is the risk that the other party in the transaction will not, or lacks the capacity or authority to, fulfill its contractual obligations, liquidity risk, which includes the risk that the Funds will not be able to exit the derivative when it is advantageous to do so, and risks arising from margin requirements, which include the risk that the Funds will be required to pay additional margin or set aside additional collateral to maintain open derivative positions. The use of derivatives is a highly specialized activity that involves investment techniques and risks different from those associated with investments in more traditional securities and instruments. Losses from derivatives can also result from a lack of correlation between changes in the value of derivative instruments and the portfolio assets (if any) being hedged.

Foreign and Emerging Countries Risk — Investing in foreign markets may involve special risks and considerations not typically associated with investing in the U.S. Foreign securities may be subject to risk of loss because of more or less foreign government regulation; less public information; less stringent investor protections; less stringent accounting, corporate governance, financial reporting and disclosure standards; and less economic, political and social stability in the countries in which a Fund invests. The imposition of sanctions, exchange controls (including repatriation restrictions), confiscation of assets and property, trade restrictions (including tariffs) and other government restrictions by the U.S. or other governments, or from problems in

9. OTHER RISKS (continued)

registration, settlement or custody, may also result in losses. The type and severity of sanctions and other similar measures, including counter sanctions and other retaliatory actions, that may be imposed could vary broadly in scope, and their impact is impossible to predict. For example, the imposition of sanctions and other similar measures could, among other things, cause a decline in the value and/or liquidity of securities issued by the sanctioned country or companies located in or economically tied to the sanctioned country and increase market volatility and disruption in the sanctioned country and throughout the world. Sanctions and other similar measures could limit or prevent a Fund from buying and selling securities (in the sanctioned country and other markets), significantly delay or prevent the settlement of securities transactions, and significantly impact a Fund's liquidity and performance. Foreign risk also involves the risk of negative foreign currency exchange rate fluctuations, which may cause the value of securities denominated in such foreign currency (or other instruments through which a Fund has exposure to foreign currencies) to decline in value. Currency exchange rates may fluctuate significantly over short periods of time. To the extent that a Fund also invests in securities of issuers located in, or economically tied to, emerging markets, these risks may be more pronounced.

Foreign Custody Risk — A Fund invests in foreign securities, and as such the Fund may hold such securities and cash with foreign banks, agents, and securities depositories appointed by the Fund's custodian (each a "Foreign Custodian"). Some foreign custodians may be recently organized or new to the foreign custody business. In some countries, Foreign Custodians may be subject to little or no regulatory oversight over, or independent evaluation of, their operations. Further, the laws of certain countries may place limitations on a Fund's ability to recover its assets if a Foreign Custodian enters bankruptcy. Investments in emerging markets may be subject to even greater custody risks than investments in more developed markets. Custody services in emerging market countries are very often undeveloped and may be considerably less well regulated than in more developed countries, and thus may not afford the same level of investor protection as would apply in developed countries.

Investments in Other Investment Companies Risk — As a shareholder of another investment company, a Fund will indirectly bear its proportionate share of any net management fees and other expenses paid by such other investment companies, in addition to the fees and expenses regularly borne by the Fund.

Large Shareholder Transactions Risk — A Fund may experience adverse effects when certain large shareholders, such as other funds, institutional investors (including those trading by use of non-discretionary mathematical formulas), financial intermediaries (who may make investment decisions on behalf of underlying clients and/or include a Fund in their investment model), individuals, accounts and Goldman Sachs affiliates, purchase or redeem large amounts of shares of a Fund. Such large shareholder redemptions, which may occur rapidly or unexpectedly, may cause a Fund to sell portfolio securities at times when it would not otherwise do so, which may negatively impact a Fund's NAV and liquidity. These transactions may also accelerate the realization of taxable income to shareholders if such sales of investments resulted in gains, and may also increase transaction costs. In addition, a large redemption could result in a Fund's current expenses being allocated over a smaller asset base, leading to an increase in the Fund's expense ratio. Similarly, large Fund share purchases may adversely affect a Fund's performance to the extent that the Fund is delayed in investing new cash or otherwise maintains a larger cash position than it ordinarily would.

Liquidity Risk — A Fund may make investments that are illiquid or that may become less liquid in response to market developments or adverse investor perceptions. Illiquid investments may be more difficult to value. Liquidity risk may also refer to the risk that a Fund will not be able to pay redemption proceeds within the allowable time period or without significant dilution to remaining investors' interests because of unusual market conditions, declining prices of the securities sold, an unusually high volume of redemption requests, or other reasons. To meet redemption requests, a Fund may be forced to sell investments at an unfavorable time and/or under unfavorable conditions. If a Fund is forced to sell securities at an unfavorable time and/or under unfavorable conditions, such sales may adversely affect the Fund's NAV and dilute remaining investors' interests. Liquidity risk may be the result of, among other things, the reduced number and capacity of traditional market participants to make a market in fixed income securities or the lack of an active market. The potential for liquidity risk may be magnified by a rising interest rate environment or other circumstances where investor redemptions from fixed income funds may be higher than normal, potentially causing increased supply in the market due to selling activity. These risks may be more pronounced in connection with a Fund's investments in securities of issuers located in emerging market countries. Redemptions by large shareholders may have a negative impact on a Fund's liquidity.

June 30, 2023 (Unaudited)

9. OTHER RISKS (continued)

Market and Credit Risks — In the normal course of business, a Fund trades financial instruments and enters into financial transactions where risk of potential loss exists due to changes in the market (market risk). The value of the securities in which a Fund invests may go up or down in response to the prospects of individual companies, particular sectors or governments and/or general economic conditions throughout the world due to increasingly interconnected global economies and financial markets. Events such as war, military conflict, acts of terrorism, social unrest, natural disasters, recessions, inflation, rapid interest rate changes, supply chain disruptions, sanctions, the spread of infectious illness or other public health threats could also significantly impact a Fund and its investments. Additionally, a Fund may also be exposed to credit risk in the event that an issuer or guarantor fails to perform or that an institution or entity with which the Fund has unsettled or open transactions defaults.

Non-Diversification Risk — The Strategic Growth Fund is non-diversified, meaning that it is permitted to invest a larger percentage of its assets in one or more issuers or in fewer issuers than diversified mutual funds. Thus, the Fund may be more susceptible to adverse developments affecting any single issuer held in its portfolio, and may be more susceptible to greater losses because of these developments.

10. INDEMNIFICATIONS

Under the Trust's organizational documents, its Trustees, officers, employees and agents are indemnified, to the extent permitted by the Act and state law, against certain liabilities that may arise out of performance of their duties to the Funds. Additionally, in the course of business, the Funds enter into contracts that contain a variety of indemnification clauses. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, GSAM believes the risk of loss under these arrangements to be remote.

11. SUBSEQUENT EVENTS

Subsequent events after the Statements of Assets and Liabilities date have been evaluated, and GSAM has concluded that there is no impact requiring adjustment or disclosure in the financial statements.

12. SUMMARY OF SHARE TRANSACTIONS

Share activity is as follows:

Background

The Goldman Sachs Mid Cap Growth Fund, Goldman Sachs International Equity Insights Fund, Goldman Sachs Mid Cap Value Fund, Goldman Sachs Large Cap Value Fund, Goldman Sachs Small Cap Equity Insights Fund, Goldman Sachs Strategic Growth Fund, and Goldman Sachs U.S. Equity Insights Fund (the "Funds") are investment portfolios of Goldman Sachs Variable Insurance Trust (the "Trust"). The Board of Trustees oversees the management of the Trust and reviews the investment performance and expenses of the Funds at regularly scheduled meetings held throughout the year. In addition, the Board of Trustees determines annually whether to approve the continuance of the Trust's investment management agreement (the "Management Agreement") with Goldman Sachs Asset Management, L.P. (the "Investment Adviser") on behalf of the Funds.

The Management Agreement was most recently approved for continuation until June 30, 2024 by the Board of Trustees, including those Trustees who are not parties to the Management Agreement or "interested persons" (as defined in the Investment Company Act of 1940, as amended) of any party thereto (the "Independent Trustees"), at a meeting held on June 13-14, 2023 (the "Annual Meeting").

The review process undertaken by the Trustees spans the course of the year and culminates with the Annual Meeting. To assist the Trustees in their deliberations, the Trustees have established a Contract Review Committee (the "Committee"), comprised of the Independent Trustees. The Committee held two meetings over the course of the year since the Management Agreement was last approved. At those Committee meetings, regularly scheduled Board or other committee meetings, and/or the Annual Meeting, matters relevant to the renewal of the Management Agreement were considered by the Board, or the Independent Trustees, as applicable. With respect to each Fund, such matters included:

- (a) the nature and quality of the advisory, administrative, and other services provided to the Fund by the Investment Adviser and its affiliates, including information about:
 - (i) the structure, staff, and capabilities of the Investment Adviser and its portfolio management teams;
 - (ii) the groups within the Investment Adviser and its affiliates that support the portfolio management teams or provide other types of necessary services, including fund services groups (e.g., accounting and financial reporting, tax, shareholder services, and operations); controls and risk management groups (e.g., legal, compliance, valuation oversight, credit risk management, internal audit, compliance testing, market risk analysis, finance, and central funding); sales and distribution support groups, and others (e.g., information technology and training);
 - (iii) trends in employee headcount;
 - (iv) the Investment Adviser's financial resources and ability to hire and retain talented personnel and strengthen its operations; and
 - (v) the parent company's support of the Investment Adviser and its mutual fund business, as expressed by the firm's senior management;
- (b) information on the investment performance of the Fund, including comparisons to the performance of similar mutual funds, as provided by a third-party mutual fund data provider engaged as part of the contract review process (the "Outside Data Provider"), a benchmark performance index, and in the case of the Mid Cap Growth Fund, Mid Cap Value Fund, Small Cap Equity Insights Fund, Strategic Growth Fund, and U.S. Equity Insights Fund, a composite of accounts with comparable investment strategies managed by the Investment Adviser; and information on general investment outlooks in the markets in which the Fund invests;
- (c) information provided by the Investment Adviser indicating the Investment Adviser's views on whether the Fund's peer group and/or benchmark index had high, medium, or low relevance given the Fund's particular investment strategy;
- (d) the terms of the Management Agreement and other agreements with affiliated service providers entered into by the Trust on behalf of the Fund;
- (e) fee and expense information for the Fund, including:
 - (i) the relative management fee and expense levels of the Fund as compared to those of comparable funds managed by other advisers, as provided by the Outside Data Provider;
 - (ii) the Fund's expense trends over time; and
 - (iii) to the extent the Investment Adviser manages other types of accounts (such as bank collective trusts, private wealth management accounts, institutional separate accounts, sub-advised mutual funds, and non-U.S. funds) having investment objectives and policies similar to those of the Fund, comparative information on the advisory fees charged and services provided to those accounts by the Investment Adviser;
- (f) with respect to the extensive investment performance and expense comparison data provided by the Outside Data Provider, its processes in producing that data for the Fund;

- (g) the undertakings of the Investment Adviser and its affiliates to implement fee waivers and/or expense limitations;
- (h) information relating to the profitability of the Management Agreement and the transfer agency and distribution and service arrangements of the Fund to the Investment Adviser and its affiliates;
- (i) whether the Fund's existing management fee schedule adequately addressed any economies of scale;
- (j) a summary of the "fall-out" benefits derived by the Investment Adviser and its affiliates from their relationships with the
 Fund, including the fees received by the Investment Adviser's affiliates from the Fund for transfer agency, securities
 lending (in the case of the International Equity Insights Fund, Small Cap Equity Insights Fund, and U.S. Equity Insights
 Fund), portfolio trading, distribution and other services;
- (k) a summary of potential benefits derived by the Fund as a result of its relationship with the Investment Adviser;
- (1) information regarding commissions paid by the Fund and broker oversight, an update on the Investment Adviser's soft dollars practices (in the case of the Mid Cap Growth Fund, Mid Cap Value Fund, Large Cap Value Fund, and Strategic Growth Fund), other information regarding portfolio trading, and how the Investment Adviser carries out its duty to seek best execution:
- (m) the manner in which portfolio manager compensation is determined; and the number and types of accounts managed by the portfolio managers;
- (n) the nature and quality of the services provided to the Fund by its unaffiliated service providers, and the Investment Adviser's general oversight and evaluation (including reports on due diligence) of those service providers as part of the administrative services provided under the Management Agreement; and
- (o) the Investment Adviser's processes and policies addressing various types of potential conflicts of interest; its approach to risk management; the annual review of the effectiveness of the Fund's compliance program; and periodic compliance reports.

The Trustees also received an overview of the Funds' distribution arrangements. They received information regarding the Funds' assets, share purchase and redemption activity, and payment of distribution and service fees. Information was also provided to the Trustees relating to revenue sharing payments made by and services provided by the Investment Adviser and its affiliates to intermediaries that promote the sale, distribution, and/or servicing of Fund shares. The Independent Trustees also discussed the broad range of other investment choices that are available to Fund investors, including the availability of comparable funds managed by other advisers.

The presentations made at the Board and Committee meetings and at the Annual Meeting encompassed the Funds and other mutual funds for which the Board of Trustees has responsibility. In evaluating the Management Agreement at the Annual Meeting, the Trustees relied upon their knowledge, resulting from their meetings and other interactions throughout the year, of the Investment Adviser and its affiliates, their services, and the Funds. In conjunction with these meetings, the Trustees received written materials and oral presentations on the topics covered, and the Investment Adviser addressed the questions and concerns of the Trustees, including concerns regarding the investment performance of certain of the funds they oversee. The Independent Trustees were advised by their independent legal counsel regarding their responsibilities and other regulatory requirements related to the approval and continuation of mutual fund investment management agreements under applicable law. In addition, the Investment Adviser and its affiliates provided the Independent Trustees with a written response to a formal request for information sent on behalf of the Independent Trustees by their independent legal counsel. During the course of their deliberations, the Independent Trustees met in executive sessions with their independent legal counsel, without representatives of the Investment Adviser or its affiliates present.

Nature, Extent, and Quality of the Services Provided Under the Management Agreement

As part of their review, the Trustees considered the nature, extent, and quality of the services provided to the Funds by the Investment Adviser. In this regard, the Trustees considered both the investment advisory services and non-advisory services that are provided by the Investment Adviser and its affiliates. The Trustees noted the transition in the leadership and changes in personnel of various of the Investment Adviser's portfolio management teams that had occurred in recent periods, and the ongoing recruitment efforts aimed at bringing high quality investment talent to the Investment Adviser. They also noted the Investment Adviser's commitment to maintaining high quality systems and expending substantial resources to respond to ongoing changes to the market, regulatory and control environment in which the Funds and their service providers operate, including developments associated with the COVID-19 pandemic, geopolitical events, and economic sanctions, as well as the efforts of the Investment Adviser and its affiliates to combat cyber security risks. The Trustees also considered information regarding the Investment Adviser's business continuity planning and remote operations capabilities. The Trustees concluded that the Investment Adviser continued to commit substantial financial and operational resources to the Funds and expressed confidence that the Investment

Adviser would continue to do so in the future. The Trustees also recognized that the Investment Adviser had made significant commitments to address regulatory compliance requirements applicable to the Funds and the Investment Adviser and its affiliates.

Investment Performance

The Trustees also considered the investment performance of the Funds. In this regard, they compared the investment performance of each Fund to its peers using rankings and ratings compiled by the Outside Data Provider as of December 31, 2022, and updated performance information prepared by the Investment Adviser using the peer group identified by the Outside Data Provider as of March 31, 2023. The information on each Fund's investment performance was provided for the one-, three-, five-, and ten-year periods ending on the applicable dates, to the extent that each Fund had been in existence for those periods. The Trustees also reviewed each Fund's investment performance relative to its performance benchmark. As part of this review, they considered the investment performance trends of the Funds over time, and reviewed the investment performance of each Fund in light of its investment objective and policies and market conditions. The Trustees also received information comparing the performance of the Mid Cap Growth Fund, Mid Cap Value Fund, Small Cap Equity Insights Fund, Strategic Growth Fund, and U.S. Equity Insights Fund to that of composites of accounts with comparable investment strategies managed by the Investment Adviser.

In addition, the Trustees considered materials prepared and presentations made by the Investment Adviser's senior management and portfolio management personnel in which Fund performance was assessed. The Trustees also considered the Investment Adviser's periodic reports with respect to the Funds' risk profiles, and how the Investment Adviser's approach to risk monitoring and management influences portfolio management. In the case of International Equity Insights Fund, Small Cap Equity Insights Fund, and U.S. Equity Insights Fund, they noted the efforts of the Funds' portfolio management team to continue to enhance the investment models used in managing the Funds.

The Trustees noted that the Mid Cap Growth Fund's Institutional Shares had placed in the top half of the Fund's peer group for the one-, five-, and ten-year periods, and in the third quartile for the three-year period, and had outperformed the Fund's benchmark index for the one-year period and underperformed for the three- and five-year periods ended March 31, 2023. They observed that the International Equity Insights Fund's Institutional Shares had placed in the top half of the Fund's peer group for the one- and three-year periods, and in the third quartile for the five- and ten-year periods, and had outperformed the Fund's benchmark index for the three-year period and underperformed for the one-, five-, and ten-year periods ended March 31, 2023. The Trustees noted that the Mid Cap Value Fund's Institutional Shares had placed in the top half of the Fund's peer group for the threeand five-year periods, and in the third quartile for the one- and ten-year periods, and had outperformed the Fund's benchmark index for the one-, three-, and five-year periods and underperformed for the ten-year period ended March 31, 2023. They considered that the Large Cap Value Fund's Institutional Shares had placed in the top half of the Fund's peer group for the five-year period, in the third quartile for the one- and three-year periods, and in the fourth quartile for the ten-year period, and had outperformed the Fund's benchmark index for the one- and five-year periods and underperformed for the three- and ten-year periods ended March 31, 2023. The Trustees observed that the Small Cap Equity Insights Fund's Institutional Shares had placed in the top half of the Fund's peer group for the ten-year period, and in the third quartile for the one-, three-, and five-year periods, and had outperformed the Fund's benchmark index for the one-, three-, five-, and ten-year periods ended March 31, 2023. They considered that the Strategic Growth Fund's Institutional Shares had placed in the top half of the Fund's peer group for the three-, five-, and ten-year periods, and in the third quartile for the one-year period, and had underperformed the Fund's benchmark index for the one-, three-, five-, and ten-vear periods ended March 31, 2023. The Trustees observed that the U.S. Equity Insights Fund's Institutional Shares had placed in the top half of the Fund's peer group for the ten-year period, in the third quartile for the three-year period, and in the fourth quartile for the one- and five-year periods, and had underperformed the Fund's benchmark index for the one-, three-, five-, and ten-year periods ended March 31, 2023.

Costs of Services Provided and Competitive Information

The Trustees considered the contractual terms of the Management Agreement and the fee rates payable by each Fund thereunder. In this regard, the Trustees considered information on the services rendered by the Investment Adviser to the Funds, which included both advisory and administrative services that were directed to the needs and operations of the Funds as registered mutual funds.

In particular, the Trustees reviewed analyses prepared by the Outside Data Provider regarding the expense rankings of the Funds. The analyses provided a comparison of each Fund's management fee and breakpoints to those of a relevant peer group and category universe; an expense analysis which compared each Fund's overall net and gross expenses to a peer group and a category universe; and data comparing each Fund's net expenses to the peer and category medians. The analyses also compared each Fund's

other expenses and fee waivers/reimbursements to those of the peer group and category medians. The Trustees concluded that the comparisons provided by the Outside Data Provider were useful in evaluating the reasonableness of the management fees and total expenses paid by the Funds.

In addition, the Trustees considered the Investment Adviser's undertakings to implement fee waivers and/or expense limitations. The Trustees also noted that certain changes were being made to existing fee waiver or expense limitation arrangements of the International Equity Insights Fund and Strategic Growth Fund that would have the effect of decreasing total Fund expenses, with such changes taking effect in connection with the Fund's next annual registration statement update. They also considered, to the extent that the Investment Adviser manages other types of accounts having investment objectives and policies similar to those of the Funds, comparative fee information for services provided by the Investment Adviser to those accounts, and information that indicated that services provided to the Funds differed in various significant respects from the services provided to other types of accounts which, in many cases, operated under less stringent legal and regulatory structures, required fewer services from the Investment Adviser to a smaller number of client contact points, and were less time-intensive.

In addition, the Trustees noted that shareholders are able to redeem their shares at any time if shareholders believe that the Fund fees and expenses are too high or if they are dissatisfied with the performance of the Fund.

Profitability

The Trustees reviewed each Fund's contribution to the Investment Adviser's revenues and pre-tax profit margins. In this regard the Trustees noted that they had received, among other things, profitability analyses and summaries, revenue and expense schedules by Fund and by function (*i.e.*, investment management, transfer agency and distribution and service), and information on the Investment Adviser's expense allocation methodology. They observed that the profitability and expense figures are substantially similar to those used by the Investment Adviser for many internal purposes, including compensation decisions among various business groups, and are thus subject to a vigorous internal debate about how certain revenue and expenses should be allocated. The Trustees also noted that the internal audit group within the Goldman Sachs organization periodically audits the expense allocation methodology and that the internal audit group was satisfied with the reasonableness, consistency, and accuracy of the Investment Adviser's expense allocation methodology. Profitability data for each Fund was provided for 2022 and 2021, and the Trustees considered this information in relation to the Investment Adviser's overall profitability.

Economies of Scale

The Trustees considered the information that had been provided regarding whether there have been economies of scale with respect to the management of the Funds. The Trustees also considered the breakpoints in the fee rate payable under the Management Agreement for each of the Funds at the following annual percentage rates of the average daily net assets of the Funds:

	International Equity Insights Fund	Large Cap Value Fund	Strategic Growth Fund	U.S. Equity Insights Fund
First \$1 billion	0.81%	0.72%	0.71%	0.62%
Next \$1 billion	0.73	0.65	0.64	0.59
Next \$3 billion	0.69	0.62	0.61	0.56
Next \$3 billion	0.68	0.60	0.59	0.55
Over \$8 billion	0.67	0.59	0.58	0.54
	Mid Cap Growth Fund		d Cap ie Fund	Small Cap Equity Insights Fund
First \$2 billion	0.87%	0	0.77%	0.70%
Next \$3 billion	0.78	0	0.69	0.63
Next \$3 billion	0.74	0	0.66	0.60
Over \$8 billion	0.73	0	0.65	0.59

The Trustees noted that the breakpoints were designed to share potential economies of scale, if any, with the Funds and their shareholders as assets under management reach those asset levels. The Trustees considered the amounts of assets in the Funds; the Funds' recent share purchase and redemption activity; the information provided by the Investment Adviser relating to the costs of

the services provided by the Investment Adviser and its affiliates and their realized profits; information comparing fee rates charged by the Investment Adviser with fee rates charged to other funds in the peer groups; and the Investment Adviser's undertakings to waive a portion of its management fee (with respect to the Mid Cap Growth Fund, International Equity Insights Fund, Large Cap Value Fund, and U.S. Equity Insights Fund) and to limit certain expenses of the Funds that exceed specified levels as well as Goldman Sachs & Co. LLC's ("Goldman Sachs") undertaking to waive a portion of the Distribution and Service fees paid by Mid Cap Growth Fund and U.S. Equity Insights Fund. Upon reviewing these matters at the Annual Meeting, the Trustees concluded that the fee breakpoints represented a means of assuring that benefits of scalability, if any, would be passed along to shareholders at the specified asset levels. They also noted that the Investment Adviser had passed along savings to shareholders of the Mid Cap Growth Fund and Mid Cap Value Fund, which had asset levels above at least the first breakpoint during the prior fiscal year.

Other Benefits to the Investment Adviser and Its Affiliates

The Trustees also considered the other benefits derived by the Investment Adviser and its affiliates from their relationships with the Funds as stated above, including: (a) transfer agency fees received by Goldman Sachs; (b) brokerage and futures commissions earned by Goldman Sachs for executing securities and futures transactions on behalf of the Funds; (c) research received by the Investment Adviser from broker-dealers in exchange for executing certain transactions on behalf of the Mid Cap Growth Fund, Mid Cap Value Fund, Large Cap Value Fund, and Strategic Growth Fund; (d) trading efficiencies resulting from aggregation of orders of the Funds with those for other funds or accounts managed by the Investment Adviser; (e) fees earned by Goldman Sachs Agency Lending ("GSAL"), an affiliate of the Investment Adviser, as securities lending agent for the International Equity Insights Fund, Small Cap Equity Insights Fund, and U.S. Equity Insights Fund and fees earned by the Investment Adviser for managing the fund in which the Funds' securities lending cash collateral of the Mid Cap Growth Fund, Mid Cap Value Fund, Large Cap Value Fund, and Strategic Growth Fund is invested; (f) the Investment Adviser's ability to leverage the infrastructure designed to service the Funds on behalf of its other clients; (g) the Investment Adviser's ability to cross-market other products and services to Fund shareholders; (h) Goldman Sachs' retention of certain fees as Fund Distributor; (i) the Investment Adviser's ability to negotiate better pricing with custodians on behalf of its other clients, as a result of the relationship with the Funds; (j) the investment of cash and cash collateral in money market funds managed by the Investment Adviser that will result in increased assets under management for those money market funds; (k) the investment in exchange-traded funds ("ETFs") managed by the Investment Adviser that will result in increased assets under management for those ETFs and may facilitate the development of the Investment Adviser's ETF advisory business; and (l) the possibility that the working relationship between the Investment Adviser and the Funds' third-party service providers may cause those service providers to be more likely to do business with other areas of Goldman Sachs. In the course of considering the foregoing, the Independent Trustees requested and received further information quantifying certain of these fall-out benefits.

Other Benefits to the Funds and Their Shareholders

The Trustees also noted that the Funds receive certain other potential benefits as a result of their relationship with the Investment Adviser, including: (a) trading efficiencies resulting from aggregation of orders of the Funds with those of other funds or accounts managed by the Investment Adviser; (b) enhanced servicing from vendors due to the volume of business generated by the Investment Adviser and its affiliates; (c) enhanced servicing from broker-dealers due to the volume of business generated by the Investment Adviser and its affiliates; (d) the Investment Adviser's ability to negotiate favorable terms with derivatives counterparties on behalf of the Funds as a result of the size and reputation of the Goldman Sachs organization; (e) the advantages received from the Investment Adviser's knowledge and experience gained from managing other accounts and products; (f) the Investment Adviser's ability to hire and retain qualified personnel to provide services to the Funds because of the reputation of the Goldman Sachs organization; (g) the Funds' access, through the Investment Adviser, to certain firm-wide resources (e.g., proprietary risk management systems and databases), subject to certain restrictions; (h) the ability of the International Equity Insights Fund, Small Cap Equity Insights Fund, and U.S. Equity Insights Fund to participate in the securities lending program administered by GSAL, as measured by the revenue received by the Funds in connection with the program; and (i) the Funds' access to certain affiliated distribution channels. In addition, the Trustees noted the competitive nature of the mutual fund marketplace, and considered that many of the Funds' shareholders invested in the Funds in part because of the Funds' relationship with the Investment Adviser and that those shareholders have a general expectation that the relationship will continue.

Conclusion

In connection with their consideration of the Management Agreement, the Trustees gave weight to each of the factors described above, but did not identify any particular factor as controlling their decision. After deliberation and consideration of all of

the information provided, including the factors described above, the Trustees concluded, in the exercise of their business judgment, that the management fees paid by each of the Funds were reasonable in light of the services provided to it by the Investment Adviser, the Investment Adviser's costs and each Fund's current and reasonably foreseeable asset levels. The Trustees unanimously concluded that the Investment Adviser's continued management likely would benefit each Fund and its shareholders and that the Management Agreement should be approved and continued with respect to each Fund until June 30, 2024.

Liquidity Risk Management Program (Unaudited)

Each Fund has adopted and implemented a liquidity risk management program (the "Program") in accordance with Rule 22e-4 under the 1940 Act. The Program seeks to assess and manage each Fund's liquidity risk, *i.e.*, the risk that a Fund is unable to satisfy redemption requests without significantly diluting remaining investors' interests in the Fund. The Board of Trustees of the Trust has designated GSAM, each Fund's investment adviser, to administer the Program. Certain aspects of the Program rely on third parties to perform certain functions, including the provision of market data and application of models.

The Program is comprised of various components designed to support the assessment and/or management of liquidity risk, including: (1) the periodic assessment (no less frequently than annually) of certain factors that influence a Fund's liquidity risk; (2) the periodic classification (no less frequently than monthly) of a Fund's investments into one of four liquidity categories that reflect an estimate of their liquidity under current market conditions; (3) a 15% limit on the acquisition of "illiquid investments" (as defined under Rule 22e-4); (4) for a Fund that does not invest primarily in "highly liquid investments" (as defined under Rule 22e-4), the determination of a minimum percentage of the Fund's assets that will generally be invested in highly liquid investments (a "Highly Liquid Investment Minimum"); and (5) periodic reporting to the Board of Trustees.

At a meeting of the Board of Trustees on February 14-15, 2023, GSAM provided a written report to the Board addressing the operation, and the adequacy and effectiveness of the implementation, of the Program, including, as applicable, the operation of any Highly Liquid Investment Minimum and any material changes to the Program, for the period from January 1, 2022 through December 31, 2022 (the "Reporting Period"). Among other things, the annual report discussed: (1) the results of stress tests designed to assess liquidity under a hypothetical stressed scenario involving elevated redemptions; (2) an assessment of the methodologies used to classify investments into one of four liquidity categories; (3) the impact of local holidays in non-U.S. jurisdictions; and (4) the impact of geopolitical, market and economic developments and events on liquidity and liquidity risk. The report concluded that the Program continues to be reasonably designed to assess and manage liquidity risk and was adequately and effectively implemented during the Reporting Period.

There can be no assurance that the Program will achieve its objectives under all circumstances in the future. Please refer to your Fund's prospectus for more information regarding the Fund's exposure to liquidity risk and other risks to which it may be subject.

Fund Expenses — Six Month Period Ended June 30, 2023 (Unaudited)

As a shareholder of Institutional or Service Shares of the Funds, you incur ongoing costs, including management fees, distribution and/or service (12b-1) fees (with respect to Service Shares) and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Institutional Shares and Service Shares of the Funds and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from January 1, 2023 through June 30, 2023, which represents a period of 181 days of a 365 day year. Actual Expenses — The first line under each share class in the table below provides information about actual account values and actual expenses. You may use the informationinthis line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000=8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid" to estimate the expenses you paid on your account during this period.

expenses based on the Funds' actual net expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Funds' actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Hypothetical Example for Comparison Purposes — The second line under each share class in the table below provides information about hypothetical account values and hypothetical Funds and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only. As a shareholder of the Funds you do not incur any transaction costs, such as sales charges, redemption fees, or exchange fees, but shareholders of other funds may incur such costs. The second line of the table is useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds whose shareholders may incur transaction costs.

Hypothetical expenses are based on each Fund's actual annualized net expense ratios and an assumed rate of return of 5% per year before expenses.

Expenses are calculated using each Fund's annualized net expense ratio for each class, which represents the ongoing expenses as a percentage of net assets for the six months ended June 30, 2023. Expenses are calculated by multiplying the annualized net expense ratio by the average account value for the period; then multiplying the result by the number of days in the most recent fiscal half year; and then dividing that result by the number of days in the fiscal year. The annualized net expense ratios for the period were as follows:

Fund	Institutional Service Shares Shares	Service Shares
International Equity Insights Fund	0.81%	1.06%
Large Cap Value Fund	0.70	0.93
Mid Cap Growth Fund	0.83	0.98
Mid Cap Value Fund	0.84	1.08

The reports concerning the Funds included in this shareholder report may contain certain forward-looking statements about the factors that may affect the performance of the Funds in the future. These statements are based on Funds management's predictions and expectations concerning certain future events and their expected impact on the Funds, such as performance of the economy as a whole and of specific industry sectors, changes in the levels of interest rates, the impact of developing world events, and other factors that may influence the future performance of the Funds. Management believes these forward-looking statements to be reasonable, although they are inherently uncertain and difficult to predict. Actual events may cause adjustments in portfolio management strategies from those currently expected to be employed.

A description of the policies and procedures that the Funds uses to determine how to vote proxies relating to portfolio securities and information regarding how the Funds voted proxies relating to portfolio securities for the 12-month period ended June 30 is available (i) without charge, upon request by calling 1-800-621-2550; and (ii) on the Securities and Exchange Commission ("SEC") web site at http://www.sec.gov.

The Funds will file portfolio holdings information for each month in a fiscal quarter within 60 days after the end of the relevant fiscal quarter on Form N-PORT. Portfolio holdings information for the third month of each fiscal quarter will be made available on the SEC's web site at http://www.sec.gov. Portfolio holdings information may be obtained upon request and without charge by calling 1-800-526-7384 (for Retail Shareholders) or 1-800-621-2550 (for Institutional Shareholders).

Funds holdings and allocations shown are as of June 30, 2023 and may not be representative of future investments. Funds holdings should not be relied on in making investment decisions and should not be construed as research or investment advice regarding particular securities. Current and future holdings are subject to risk.

References to indices, benchmarks or other measures of relative market performance over a specified period of time are provided for your information only and do not imply that the portfolio will achieve similar results. The index composition may not reflect the manner in which a portfolio is constructed. While an adviser seeks to design a portfolio which reflects appropriate risk and return features, portfolio characteristics may deviate from those of the benchmark.

The Global Industry Classification Standard ("GIGS") was developed by and is the exclusive property and a service mark of Morgan Stanley Capital International Inc. ("MSCI") and Standard & Poor's, a division of The McGraw-Hill Companies, Inc. ("S&P") and is licensed for use by Goldman Sachs. Neither MSCI, S&P nor any other party involved in making or compiling the GICS or any GICS classifications makes any express or implied warranties or representations with respect to such standard or classification (or the results to be obtained by the use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability or fitness for a particular purpose with respect to any of such standard or classification. Without limiting any of the foregoing, in no event shall MSCI, S&P, any of their affiliates or any third party involved in making or compiling the GICS or any GICS classifications have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

The portfolio risk management process includes an effort to monitor and manage risk, but does not imply low risk.

Shares of the Goldman Sachs VIT Funds are offered to separate accounts of participating life insurance companies for the purpose of funding variable annuity contracts and variable life insurance policies. Shares of the Funds are not offered directly to the general public. The variable annuity contracts and variable life insurance policies are described in the separate prospectuses issued by participating insurance companies. You should refer to those prospectuses for information about surrender charges, mortality and expense risk fees and other charges that may be assessed by participating insurance companies under the variable annuity contracts or variable life insurance policies. Such fees or charges, if any, may affect the return you may realize with respect to your investments. Ask your representative for more complete information. Please consider a Fund's objectives, risks and charges and expenses, and read the prospectus carefully before investing. The prospectus contains this and other information about the Funds.

This material is not authorized for distribution to prospective investors unless preceded or accompanied by a current prospectus or summary prospectus, if applicable. Investors should consider the Funds' objective, risks, and charges and expenses, and read the summary prospectus, if available, and/or the prospectus carefully before investing or sending money. The summary prospectus, if available, and the prospectus contain this and other information about the Funds and may be obtained from your authorized dealer or from Goldman Sachs & Co. LLC by calling 1-800-621-2550.

This report is prepared for the general information of contract owners and is not an offer of shares of the Goldman Sachs Variable Insurance Trust Funds.
