^{*}Notional amount is the number of contracts multiplied by contract size, and may be multiplied by the underlying price. May include currency units, bushels, shares, pounds, barrels or other units. Currency units are stated in U.S. dollars unless otherwise indicated.

^{*}The principal amount is stated in U.S. dollars unless otherwise indicated.

[†]Rounds to less than 0.1% of net assets.

^a Non-income producing.

b Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933, 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2023, the aggregate value of these securities was \$20,406,530, representing 3.8% of net assets.

[°]Variable rate security. The rate shown represents the yield at period end.

^d Fair valued using significant unobservable inputs. See Note 6 regarding fair value measurements.

The coupon rate shown represents the rate at period end.

^fPerpetual security with no stated maturity date.

⁹A supranational organization is an entity formed by two or more central governments through international treaties.

h Principal amount is stated in 100 Mexican Peso Units.

¹Principal amount of security is adjusted for inflation.

Adjustable rate security with an interest rate that is not based on a published reference index and spread. The rate is based on the structure of the agreement and current market conditions. The coupon rate shown represents the rate at period end.

^kThe coupon rate shown represents the rate inclusive of any caps or floors, if applicable, in effect at period end.

Investment in an interest-only security entitles holders to receive only the interest payment on the underlying instruments. The principal amount shown is the notional amount of the underlying instruments.

^mSecurity purchased on a to-be-announced (TBA) basis.

ⁿ A portion or all of the security purchased on a delayed delivery basis.

^o See Note 5 regarding investments in affiliated management investment companies.

PThe rate shown is the annualized seven-day effective yield at period end.

At September 30, 2023, the Fund had the following futures contracts outstanding.

- *The principal amount is stated in U.S. dollars unless otherwise indicated.
- †Rounds to less than 0.1% of net assets.
- a Non-income producing.
- b Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2023, the aggregate value of these securities was \$1,032,667,140, representing 34.2% of net assets.
- °A portion or all of the security purchased on a delayed delivery basis.
- d A portion or all of the security is on loan at September 30, 2023.
- e Perpetual security with no stated maturity date.
- ^fThe coupon rate shown represents the rate at period end.
- ⁹ Defaulted security or security for which income has been deemed uncollectible.
- ^h See Note 5 regarding investments in affiliated management investment companies.
- ¹The rate shown is the annualized seven-day effective yield at period end.

At September 30, 2023, the Fund had the following futures contracts outstanding.

Futures Contracts

Description	Туре	Number of Contracts	Notional Amount*	Expiration Date	Value/ Unrealized Appreciation (Depreciation)
Interest rate contracts					
U.S. Treasury 10 Year Notes	Long	1,250	\$135,078,125	12/19/23	\$(1,779,200)
U.S. Treasury Ultra Bonds	Long	437	51,866,438	12/19/23	(3,070,965)
Total Futures Contracts					\$(4,850,165)

Net Assets 100.0%			\$286,926,060

^{*}The principal amount is stated in U.S. dollars unless otherwise indicated.

[†]Rounds to less than 0.1% of net assets.

^a Fair valued using significant unobservable inputs. See Note 6 regarding fair value measurements.

^b Non-income producing.

[°] See Note 3 regarding restricted securities.

^d See Note 5 regarding investments in affiliated management investment companies.

e Income may be received in additional securities and/or cash.

^fDefaulted security or security for which income has been deemed uncollectible.

⁹ Perpetual security with no stated maturity date.

h Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933, 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2023, the aggregate value of these securities was \$107,247,566, representing 37.4% of net assets.

The coupon rate shown represents the rate at period end.

¹See full breakdown of marketplace loans holdings in the table at the end of this schedule.

kA supranational organization is an entity formed by two or more central governments through international treaties.

¹Principal amount of security is adjusted for inflation.

^mThe coupon rate shown represents the rate inclusive of any caps or floors, if applicable, in effect at period end.

Adjustable rate security with an interest rate that is not based on a published reference index and spread. The rate is based on the structure of the agreement and current market conditions. The coupon rate shown represents the rate at period end.

oAdjustable Rate Mortgage-Backed Security (ARM); the rate shown is the effective rate at period end. ARM rates are not based on a published reference rate and spread, but instead pass-through weighted average interest income inclusive of any caps or floors, if applicable, from the underlying mortgage loans in which the majority of mortgages pay interest based on the index shown at their designated reset dates plus a spread, less the applicable servicing and guaranty fee (MBS margin).

PThe rate shown is the annualized seven-day effective yield at period end.

Schedule of Investments (unaudited), September 30, 2023

Franklin Strategic Income VIP Fund

At September 30, 2023, the Fund had the following marketplace loans outstanding.

⁽a)In U.S. dollars unless otherwise indicated. For contracts to sell protection, the notional amount is equal to the maximum potential amount of the future payments and no recourse provisions have been entered into in association with the contracts.

See Abbreviations on page 171.

⁽Based on Standard and Poor's (S&P) Rating for single name swaps and internal ratings for index swaps. Internal ratings based on mapping into equivalent ratings from external vendors.

⁽Performance triggers for settlement of contract include default, bankruptcy or restructuring for single name swaps, and failure to pay or bankruptcy of the underlying securities for traded index swaps.

⁽d) The fund enters contracts to sell protection to create a long credit position.

⁽e)Represents a custom index comprised of a basket of underlying instruments.

See Abbreviations on page 171.

^{*}The principal amount is stated in U.S. dollars unless otherwise indicated.

^a Principal amount of security is adjusted for inflation.

bAdjustable Rate Mortgage-Backed Security (ARM); the rate shown is the effective rate at period end. ARM rates are not based on a published reference rate and spread, but instead pass-through weighted average interest income inclusive of any caps or floors, if applicable, from the underlying mortgage loans in which the majority of mortgages pay interest based on the index shown at their designated reset dates plus a spread, less the applicable servicing and guaranty fee (MBS margin).

elnvestment is through participation in a joint account with other funds managed by the investment manager or an affiliate of the investment manager. At September 30, 2023, all repurchase agreements had been entered into on September 29, 2023.

See Abbreviations on page 171.

^a Non-income producing.

^b A portion or all of the security is on loan at September 30, 2023.

Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2023, the value of this security was \$15,091,710, representing 1.8% of net assets.

^d See Note 5 regarding investments in affiliated management investment companies.

eThe rate shown is the annualized seven-day effective yield at period end.

^{*}The principal amount is stated in U.S. dollars unless otherwise indicated.

[†]Rounds to less than 0.1% of net assets.

Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2023, the aggregate value of these securities was \$202,530,706, representing 13.4% of net assets.

b Income may be received in additional securities and/or cash.

[°]A portion or all of the security purchased on a delayed delivery basis.

^d The security was issued on a discount basis with no stated coupon rate.

See Note 5 regarding investments in affiliated management investment companies.

^fThe rate shown is the annualized seven-day effective yield at period end.

Notes to Schedules of Investments (unaudited)

1. Organization

Franklin Templeton Variable Insurance Products Trust (Trust) is registered under the Investment Company Act of 1940 (1940 Act) as an open-end management investment company, consisting of eighteen separate funds (Funds). The Funds follow the accounting and reporting guidance in Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 946, Financial Services – Investment Companies (ASC 946) and apply the specialized accounting and reporting guidance in U.S. Generally Accepted Accounting Principles (U.S. GAAP), including, but not limited to, ASC 946. Shares of the Funds are generally sold only to insurance company separate accounts to fund the benefits of variable life insurance policies or variable annuity contracts.

The accounting policies of the Underlying Funds are outlined in their respective shareholder reports. A copy of the Underlying Funds' shareholder reports is available on the U.S. Securities and Exchange Commission (SEC) website at sec.gov. The Underlying Funds' shareholder reports are not covered by this report.

2. Financial Instrument Valuation

The Funds' investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Funds calculate the net asset value (NAV) per share each business day as of 4 p.m. Eastern time or the regularly scheduled close of the New York Stock Exchange (NYSE), whichever is earlier. Under compliance policies and procedures approved by the Trust's Board of Trustees (the Board), the Board has designated the Funds' investment manager as the valuation designee and has responsibility for oversight of valuation. The investment manager is assisted by the Funds' administrator in performing this responsibility, including leading the cross-functional Valuation Committee (VC). The Funds may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities, exchange traded funds, and derivative financial instruments listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded or as of 4 p.m. Eastern time. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the day that the value of the security is determined. Over-the-counter (OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities.

Debt securities generally trade in the OTC market rather than on a securities exchange. The Funds' pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, credit spreads, estimated default rates, anticipated market interest rate volatility, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value. Securities denominated in a foreign currency are converted into their U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the date that the values of the foreign debt securities are determined.

Investments in open-end mutual funds are valued at the closing NAV. Investments in repurchase agreements and time deposits are valued at cost, which approximates fair value.

Certain derivative financial instruments are centrally cleared or trade in the OTC market. The Funds' pricing services use various techniques including industry standard option pricing models and proprietary discounted cash flow models to determine the fair value of those instruments. The Funds' net benefit or obligation under the derivative contract, as measured by the fair value of the contract, is included in net assets.

2. Financial Instrument Valuation (continued)

The Funds have procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the Funds primarily employ a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

Trading in securities on foreign securities stock exchanges and OTC markets may be completed before 4 p.m. Eastern time. In addition, trading in certain foreign markets may not take place on every Funds' business day. Events can occur between the time at which trading in a foreign security is completed and 4 p.m. Eastern time that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Funds' portfolio securities as determined at the foreign market close and the latest indications of value at 4 p.m. Eastern time. In order to minimize the potential for these differences, an independent pricing service may be used to adjust the value of the Funds' portfolio securities to the latest indications of fair value at 4 p.m. Eastern time. At September 30, 2023, certain securities may have been fair valued using these procedures, in which case the securities were categorized as Level 2 within the fair value hierarchy (referred to as "market level fair value"). See the Fair Value Measurements note for more information.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the Funds' NAV is not calculated, which could result in differences between the value of the Funds' portfolio securities on the last business day and the last calendar day of the reporting period. Any security valuation changes due to an open foreign market are adjusted and reflected by the Funds for financial reporting purposes.

3. Restricted Securities

At September 30, 2023, investments in restricted securities, excluding securities exempt from registration under the Securities Act of 1933, were as follows:

		Acquisition		
Shares	Issuer	Date	Cost	Value

4. Investments in FT Underlying Funds

The Funds invest in Underlying Funds which are managed by Franklin Advisers, Inc. (Advisers), an affiliate of FT Services or an affiliate of Advisers. As defined in the 1940 Act, an investment is deemed to be a "Controlled Affiliate" of a fund when a fund owns, either directly or indirectly, 25% or more of the Underlying Fund's outstanding shares or has the power to exercise control over management or policies of such Underlying Fund. The Funds do not invest in Underlying Funds for the purpose of exercising a controlling influence over the management or policies.

Investments in FT Underlying Funds for the period ended September 30, 2023, were as follows:

[†]Rounds to less than 0.1% of net assets.

The Fund also invests in unrestricted securities of the issuer, valued at \$- as of September 30, 2023.

4. Investments in FT Underlying Funds (continued)

5. Investments in Affiliated Management Investment Companies

Certain or all Funds invest in one or more affiliated management investment companies. As defined in the 1940 Act, an investment is deemed to be a "Controlled Affiliate" of a fund when a fund owns, either directly or indirectly, 25% or more of the affiliated fund's outstanding shares or has the power to exercise control over management or policies of such fund. The Funds do not invest for purposes of exercising a controlling influence over the management or policies. During the period ended September 30, 2023, investments in affiliated management investment companies were as follows:

	Value at Beginning			Realized Gain	Net Change in Unrealized Appreciation	Value at End	Number of Shares Held at End	Investment
	of Period	Purchases	Sales	(Loss)	(Depreciation)	of Period	of Period	Income

6. Fair Value Measurements

The Funds follow a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Funds' own market assumptions (unobservable inputs). These inputs are used in determining the value of the Funds' financial instruments and are summarized in the following fair value hierarchy:

- Level 1 quoted prices in active markets for identical financial instruments
- Level 2 other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Funds' own assumptions in determining the fair value of financial instruments)

The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

A summary of inputs used as of September 30, 2023, in valuing the Funds' assets and liabilities carried at fair value, is as follows:

	Level 1	Level 2	Level 3	Total
nklin Allocation VIP Fund

^aPurchases include all purchases of securities and securities received in corporate actions.

bSales include all sales of securities, maturities, paydowns and securities tendered in corporate actions.

[°]Includes financial instruments determined to have no value.

Significant unobservable valuation inputs for material Level 3 assets and/or liabilities and impact to fair value as a result of changes in unobservable valuation inputs as of September 30, 2023, are as follows:

Description	Fair Value at End of Period	Valuation Technique	Unobservable Inputs	Amount/ Range (Weighted Average) ^a	Impact to Fair Value if Input Increases ^b
Franklin Small-Mid Cap Growth VIP Fund					
Assets:					
Investments in Securities:					
Common Stocks:					
Leisure Products	6,372,647	Market comparables	Discount for lack of marketability	9.9%	Decrease
			EV / revenue multiple	4.5x	Increase
All Other Investments	5,123,536	,d			
Total	\$11,496,183				
Franklin Strategic Income VIP Fund Assets:					
Investments in Securities:					
Marketplace Loans:					
Financial Services	\$4,292,551	Discounted cash flow	Loss-adjusted discount rate	1.3% - 18.2% (8.4%)	Decrease
			Projected loss rate	0.9% - 63.2% (20.2%)	Decrease
All other investments					
Total	\$4,292,551				

^aWeighted based on the relative fair value of the financial instruments.

Represents the directional change in the fair value of the Level 3 financial instruments that would result from a significant and reasonable increase in the corresponding input. A significant and reasonable decrease in the input would have the opposite effect. Significant increases and decreases in these inputs in isolation could result in significantly higher or lower fair value measurements.

Includes fair value of immaterial assets and/or liabilities developed using various valuation techniques and unobservable inputs. May also include values derived using recent transactions, private transaction prices or non-public third-party pricing information which is unobservable.

dincludes financial instruments determined to have no value.
